**AMENDMENT TO OIL AND GAS LEASE****STATE OF TEXAS §**

KNOW ALL MEN BY THESE PRESENTS:

**COUNTY OF TARRANT §**

**WHEREAS**, Westex Natural Resources, LP, ("Lessor"), and Collins and Young, L.L.C., entered into that one certain Oil and Gas Lease ("Lease") dated June 28, 2005, evidenced by Memorandum of Oil and Gas Lease recorded at Instrument #D205198856, of the Official Records of Tarrant County, Texas, and extended by Extension of Oil, Gas and Mineral Lease recorded at Instrument #D209134460 of the Official Records of Tarrant County, Texas, which Lease covers and includes 77.895 acres of land, more or less ("the Land"), situated in the following surveys: the J.B. Odell Survey, A-1189; the S.M. Jamison Survey, A-877; the J.W. Haynes Survey, A-795; and the W.C. Smith Survey, A-1440; Tarrant County, Texas; reference to which is here made; and

**WHEREAS**, Devon Energy Production Company, L.P.; Collins & Young Holdings, L.P.; Southern California Public Power Authority; and Turlock Irrigation District ("Lessee") are now the owners of the leasehold estate covered by said Lease; and

**WHEREAS**, Lessor and Lessee mutually agree to amend the terms of said lease;

**NOW THEREFORE**, for Ten and NO/100 dollars and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, it is hereby understood and agreed by Lessor and Lessee that the Lease is hereby amended by deleting the following language from Paragraph #19:

"At the expiration of the primary term this lease shall terminate as to all depths 100 feet below the deepest formation from which oil and gas is currently being produced either from this lease or land pooled with this lease. If the lease is being maintained by the payment of shut-in royalties, then the lease shall terminate as to all depths 100 feet below the deepest formations for which the well has been shut-in."

Lease is hereby further amended to insert the following language in place of the language herein deleted:

"If, at the expiration of the primary term of this lease, Lessee is conducting drilling, completion, reworking or recompletion operations, or if Lessee has conducted drilling, completion, reworking or recompletion operations within ninety (90) days of the expiration of the primary term, then this lease shall continue in force and effect as to all of the acreage covered by this lease so long as said drilling, completion, reworking or recompletion operations are continually prosecuted with no cessation of more than ninety (90) consecutive days. If such

continuous drilling, completion, reworking or recompletion operations result in a well capable of production, then this lease shall continue in force and effect so long thereafter as oil and gas or either of them is produced in paying quantities under the terms of this lease. At such time as Lessee no longer drills, completes, reworks or recompletes under this paragraph, this lease shall terminate as to all depths 100 feet below the stratigraphic equivalent of the deepest formation from which oil or gas is currently being produced from either this lease or land pooled with this lease. If the lease is being maintained by shut-in royalties, then the lease shall terminate as to all depths 100 feet below the stratigraphic equivalent of the deepest formation for which the well has been shut-in."

The Lease and this Amendment are considered to be in full force and effect and are hereby ratified and confirmed by the Lessor and Lessee, and as the same may be necessary to accomplish the purposes of this Amendment, Lessor does hereby Grant, Lease and Let unto Lessee the Land, subject to the terms of the Lease and this Amendment.

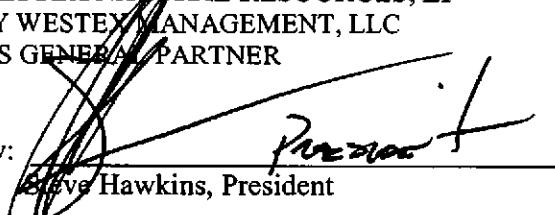

Except as hereby amended, all other terms and conditions of said Lease shall remain in full force and effect as presently written.

This document may be executed in multiple counterparts which when taken together will constitute a single document.

IN WITNESS WHEREOF, the undersigned parties have hereunto set their hands this 22<sup>nd</sup> day of December, 2009.
